

## **Who Told Them We Ethiopians Deserted from Jesus Christ?**

**By**  
**Getachew Reda**

Ladies and Gentlemen: before you start reading my article I invite you to visit the following website

<http://www.saveethiopians.net> and you will see a clip of video produced by a group of missionaries in Ethiopia under the mission “COME AND CHANGE THE WORLD WITH US” <http://www.freshfire.ca/downloads/video/ethiopia1wmv>

After you watch the video clips posted on the indicated Ethiopian website above which is posted by victims and concerned patriotic Ethiopians, give your judgment how the Ethiopian pride, soul and body is undignified, dehumanized, pushed to the ground, hold and pressed by a Cow Boy boot, suffocated and squeezed until the victim choked and forced to say and repeat the comical fangs/delusional words sank into the repressed psyches of the victim set by the mind control device agents of religious preachers who are legally allowed to enter into Ethiopia from the West to spread Western religions with full cooperation of the present Ethiopian government of TPLF/EPRDF.

This and other mind control conspiratorial mission of abuse from outsiders and inside collaborators of some Ethiopian born mercenaries needs to be challenged none violently by social scholars and patriotic Ethiopians to protect our citizens from such absurd and abuse. I am not going to waste my time challenging these modern witch craft-sinners and mind produce technique producers/abusers/ who falsely claimed themselves agents of God and “the healers” to ask them if they did finished healing their own people who are suffering from different manic depression, negative attitude, sin, illnesses, poverty, discrimination, repression and insane suffering by a the said/claimed “demon” first and for-most before they cross Africa/Ethiopia asking us to join their invitation of “Come Change the World with Us” mission. Certainly, since we know they didn’t start it let alone finish their mission of healing in their respected countries in the West, where we live and witnessing that millions hollering at them from prison darks to the Ghetto-hood fences, repeatedly appealing for their help, as the Michael Eric Dyson book title clearly stated it “Holler if You Hear Me and Mercy, Mercy Me”. Leaving those millions behind bars and the Ghetto hoods suffering from mental and social illness and discriminations living those millions of desperate Americans appealing for help with no one to reach them. Millions living in desperations without those missionaries of man made God and Goddesses of holly hands of protection, no one around to help them while still yelling for “Help”. Is this something expected from these healers and missionaries? Why do they give priority Africans to be healed by these Religious missionaries before the millions of desperate Americans helped and heal? This is something we all should question their mission to Ethiopia/Africa.

As you clearly saw it in the video, anyone Ethiopian who respect his people and culture after seeing this dehumanizing act by those missionaries against our citizens should concenter the act as each of our weakness and embarrassment to let our pride, dignified, illiterates, honest, down to earth people to be vulnerable for such vicious, noisy, myth and repressive mind control abusive acts in the name of religion. Seeing such humiliation,

seeing your people pushed to the ground, squeezed, choked and pressed hold to the ground by a foreigner's boots treated as a slaughtered cow with no passion/care of love of God but to produce guilt- a "Guilt" in the mind of innocents by those appeared "God" acting- like is indeed heart breaking.

Those of you who took hypnotic class as a minor or major subject in school will agree with me these missionaries and their collaborators are trying to inject guilt in the mind of those who are illiterate, poor and vulnerable Ethiopians in Ethiopia by producing special mind control techniques to claim they are God sent healers falsely.

Let us discuss religion among us the adults who claimed read few pages of the modern civilization and science without involving the unaware sectors of society to our discussion to clearly challenge it for better development. Religion is an ideology. As long as it is ideology, science, medicine (theology)-it is subject for challenges and questions. As long as it insists conformity and power, still human mind will certainly question its negative and positive value. This is base on why I need to elaborate to all of you, that religion too must be stopped when it crossed the human dignity and pride. You like me as a person or not for challenging those mind control agents is your right and your judgment. But, what I am concerned the most is urging all of you particularly those of you the young students in Ethiopian universities and high school students reading my article not to take it slightly the issue of "pride and sovereignty" when you examine in your mind to give the meanings of "human dignity, flag, country, truth, love religion and God" in order to protect our vulnerable society at this very challenging era of Ethiopia's survival in question. All must discuss what is wrong with us and why our society is by the Western religion exporters treated as "souls who are not familiar with Jesus Christ/God"? And why are they calling our people "insane, demon, mentally unfit to heal ourselves by ourselves without looking outsider's man made God/Goddess who are calling themselves-at the rank of healers/saviors"? How could their God told them to landing their cowboy boot on our people's chest and throat as if an escapee goat from a slaughtering house as beasts to take a mockery of us could concenter as if a sign of passion and God's love?

We understand man lives in the universe, which partially understands. He is confronted with forces and powers over which he can exercise only a limited control but which press upon his life insist on conformity with their laws. I understand we can formulate questions to which we cannot find answers. As one classic author note "Answers to all the biggest questions still remaining in the area of speculation". Man knows he is doom to die from nature on which he yet has no control. Because of the inevitable "death", he is vulnerable to fear in every second of his life. The remedy to his paranoia as tool of response is what is called "religion"; the author that I don't want to mention says "and his attempt to formulate some intelligible and assuring account of his relationship with the mysterious and threatening world around him gave birth to the myths, the creeds, the dogmas, the "beliefs" by means of which men have attempted to find a measure of reassurance"

Western religions he said “(unlike some in the east) take the divine origin of man as their starting points.....Central to all Western religion is the concept of a divine “father” who has revealed what rules of conduct he wishes his human children to follow. That there was some survival usefulness in this concept of an extra-human lawmaker cannot be doubted. If a primitive society was to preserve its cohesion and to compel its individual members to conform to social customs it required a sanction outside itself. Thus the tribal rulers of conduct became much more than socially useful rules, they became much more than socially useful rules, they became divinely ordained laws. And ***from the divine lawmakers there was no escape. However alone you were, however separated from your tribal group, the all Seeing Eye was there watching you. In the very depth of the jungle, in the vast spaces of the desert you were being watched. As a technique to maintain social cohesion it was a useful device and perhaps in the earlier stage of man’s development a necessary one***”.

Now, if you have seen the video clip I referred you to watch, let us then ask why those foreign/Western missionaries in Ethiopia forced the poor, vulnerable society to feel sense of guilt? As you read it above I quoted it for you; belief in an all-powerful, all-seeing father-god was an extension the child’s experience of his human father. To a small child his father appears godlike: he is omnipotent; he is the provider; in his arms one feels no fear; he brings protection, comfort, security, love. But the human father is also capable of terrible anger and has constantly to be propitiated. Every child is aware of the necessity to submit to his father, and this became later his submission to his father god: said the author- “thy will oh Lord not mine be done” religion, in thus extending into later life attitudes appropriate to childhood, acted as a mechanism for the control of the adult.

But, deep-seated beliefs die slowly. An enormous number of people who think they have abandoned their belief on father-god nevertheless feel as if they have sinned have broken an extra-human law when they deviate from some man-made rule. That is what you see in that video the missionaries trying to force guilt on those ill, poor, weak, vulnerable, powerless Ethiopian societies as if they didn’t know or have no faith of Jesus Christ These missionaries and their inside collaborators are accusing and diagnosing these poor mentally sick people as followers of demon or captives/worshippers/victims of demon/evil dubbed as if “Deserters from the Jesus”. These disable sick/ill patients could have been suffering from viral malaria or the meningocerebritis or any blood, nerve or chemical imbalance of the body and brain system suffering for months or years: Still these missionaries could careless about to find the real cause of the patients (as long as the patient is not themselves or one of their close family-/ which you and I know for sure, if this patients was theirs, they will be referred to “the best medical Doctor money can buy in the Glob”. But since our people has no governmental protection from its own country government- these poor, vulnerable, starved repressed and depressed human beings; are approached by those missionaries and their collaborators with a vicious, mythical and extremely-noisy mind control exclamation and murmur to make them feel guilt in order to control their supremacy and control indigenous people in a sovereign country that they want to colonize and dived and rule introducing hundreds of new religious beliefs of their own among a virgin society forced to abandoned his religious leaders, belief and culture.

*Guilt is an immensely powerful weapon. If once you can make a man feel guilty, make him that there is something WRONG WITH HIM you have gained a psychological ascendancy over him. In the course of human history all manner of guilt producing techniques have been developed by those who wish to keep us in subjection. Organized Western religion are masters at producing guilt among their followers. That is why you saw in the video clip that I referred you to watch how they insisting these poor vulnerable weak patients, physically and psychologically forcibly obliged to admit guilt of “sane” what ever sane they are making-up to subdued their prey. They- “these agents” acted as “Men Gods” as if they are the absolute god of goodness, present themselves in front of our vulnerable society as perfect as the father in heaven with no reservation of guilt to their inner soul to force poor weak vulnerable medical patients to admit Guilt as if they are worthless human-beings is nothing but arrogance and premature-mental ignorance of those who claimed civilized healers. I take see this conspiracy of injecting ideology of confusion to encounter modern science from growing in third world countries.*

When you look at the video clip, though they forced the weak to be pushed to the ground by subdued the weak forcefully to create anxiety and suspicious in their soul, I believe the preachers themselves shows they too seem they are not free from guilt. The suggestions given to those made vulnerable by religious belief have the same potency. “Religious” people are almost always people with high component of guilt and anxiety for they can “never”, in the very nature of things, live up to the “perfection” that is demanded from them. What ever compulsive disorder the healers suffered:- having said this also, these religious organizations are highly organized and powerful with possession of huge capital and property/assets with a power to elect or repress strong powerful politicians to any wave and length they wanted to drag them. Our people might not also know that *many of these religious preachers are corrupt and few landed in jail for stealing church money, greed, prostitutions and shame.* These Western “healers” can’t be blamed entirely for accusing our people of deserting Jesus Christ to be captive by “demons” saw our people shackled by chain of poverty when black American Icons a comedian like “Bill Cosby suggested to black poor that “*God is tired of you*” (read “is Bill Cosby Right (or Has the Black Middle Class Lost its Mind? By Michael Eric Dyson)

It is a wonder that so much effort, time and money go into the religious business? TV programs, elaborate ritual, marvelous music, choirs, robes, vestments, diadems, angels, candles, every device that will bedazzle us and awaken in us the primitive yearnings from our ancients past. With this go the reminders that we miserable sinners, creatures unworthy of the infinite blessings that are ours!” wrote one social activist. As many of you remember in Ethiopia and elsewhere in the past and in the present era, whatever revolutionary and survival uses religion may have had in the earlier stages of man’s development, with the emergence of class society religion became a class weapon, instead to obscure from the people the extent to which were and still are being exploited.

May I ask these foreign missionaries and their collaborators to give us the answer that “who told them we Ethiopians Deserted from Jesus Christ to the extent they devalue our people dubbing them as “a captive of demons” in their own sovereign country, poor vulnerable society pushed forcefully to the ground, choking their throat, restrained their

extremities/ legs and arms with their Cow boy boot to the ground? Why was such humiliation necessary to the weak and poor? Does the bible condemn the poor to be humiliated? We know this world is to those with money and power. It is not that this world that matters, we are told: real life, the life of joy and happiness comes when we are dead-but only if we remain docile and obedient (bless are the meek) in this We also know that the celebration of High Mass is made to be more important to people than the condition of their earthy lives. We also know that we were been preached that Life should be a time of trial and tribulation- and the more trial and tribulation we experience the more credit we accumulate for our hereafter. "Bless are the poor", this way -the poor are extremely fortunate to be poor- for they will inherit everything the whole earth-after they are dead! If that is the case why are these missionaries preaching the poor Ethiopians instead of the rich Americans who are extremely rich who took this world on earth as their heavenly sky that matters to them?

What can I say? Cray my beloved Ethiopia! May god of Ethiopia be with you, the god that immigrated with us after he himself was questioned and demanded his ethnic identity to submit to the law of the land so he "the color blind -the GOD of Ethiopia " too, to be organized with his ethnic affiliations (as if he has one) according to the ethnic law of the millennium of the New world Order. I can't help you but to cry with my pen hollering "Cray my beloved country! "//-//
